- Maximum cutting diameter: 80 mm
- Direct drive hydraulic motor
- Rotor with knives
- Hammer rotor

The hydraulic bush cutter M3 is characterised by a strong structure and is specifically designed to be used on skid steer loaders.

It is manufactured in 4 models and equipped with a couple of "Y" knives and a third central knife to reduce any treated material to fine grains. It is supplied with hydraulic hoses and bolted plate to fit skid loader (excluding the model MDC10 supplied with a welded hook). The knives are of heavy type, suitable to crush shrubs with a maximum diameter of about 80 mm.
